Can you serve the church as a computer operator for our service projection?

Properly used, computer projection is a really helpful tool in worship and one that many churches are now using. Kirkcudbright Parish Church has a licenced copy of Easy Worship and we use it both at the 9:30am service and at the 11am service. We would now like to extend the skill base so that it can be used most effectively. If you have basic computer skills and know how to use a mouse and keyboard then you may be just the person we are looking for. We will provide training in Easy Worship so that you can operate the computer during the service. In many cases, this is a simple case of pressing the button for the next slide. If you feel you can serve your church in this way please have a word with Ann Morgan or Ron McHugh
